PROFESSIONAL SUMMARY

Experienced IT professional with **20+ years of hands-on systems, infrastructure, and technical support experience**, combining long-term operational ownership with modern **cloud engineering capability**. Supported by a **NZQA Level 7 Diploma in Cloud Engineering + Certified AWS Cloud Practitioner**, bringing practical **AWS and Azure** skills on top of deep real-world desktop, network, and business systems support.

Strong background in **Desktop Engineering, MSP-style IT support, Microsoft environments, POS/EFTPOS systems, networking fundamentals, and hybrid cloud infrastructure**. Known for calm troubleshooting, strong documentation, and the ability to translate technical solutions into business outcomes.

CORE TECHNICAL SKILLS

Desktop & End-User Support

- Windows 10 / 11 deployment, configuration & troubleshooting
- Laptop & desktop diagnostics, repairs, and upgrades
- SSD migrations, data backup & performance optimisation
- User onboarding / offboarding & device lifecycle management
- Patch management and OS updates

Microsoft & Server Technologies

- Active Directory fundamentals (users, groups, permissions)
- Microsoft 365 (Outlook, Exchange Online, Teams, OneDrive)
- Windows Server concepts (identity, file services, backups)

Networking & Security (Foundational)

- TCP/IP, DNS, DHCP
- LAN/WAN troubleshooting

- Routers, switches & Wi-Fi environments
- Firewall & endpoint security concepts
- MFA, RBAC, IAM fundamentals

Cloud, Virtualisation & Platforms

- Microsoft Azure: VMs, VNets, Storage, RBAC
- AWS: EC2, VPC, IAM, S3
- Hybrid & multi-cloud architecture concepts
- Virtualisation awareness (Hyper-V / VMware)
- Linux fundamentals (Ubuntu, Amazon Linux)

Operations & Support Practices

- Tier-1 / Tier-2 troubleshooting
- Incident & root-cause analysis
- System documentation & handover
- Vendor, ISP & hardware coordination
- Compliance-driven system accuracy

PROFESSIONAL EXPERIENCE

Records & Information System Warehouse

Crown Information Management – Auckland, NZ
Jul 2025 – Jan 2026

- Operated and maintained the **O'Neil Records Management System**, handling metadata updates, indexing, and database accuracy
- Ensured **data integrity, audit trails, and chain-of-custody compliance** across physical and digital records
- Coordinated system accuracy between warehouse inventory and enterprise platforms
- Supported nationwide record picking, updates, and dispatch operations

---

Business Partner | IT & Systems Owner

VEGELAND Market Ltd – Auckland, NZ
Apr 2011 – Nov 2024

- Owned and supported **all IT systems** for a live retail business operating 7 days a week
- Managed **Windows desktops, POS terminals, EFTPOS systems, barcode scanners, receipt printers, and local network infrastructure**
- Diagnosed and resolved system outages impacting daily operations and revenue
- Performed OS installations, system upgrades, backups, and hardware replacements
- Coordinated vendors, ISPs, payment providers, and hardware suppliers
- Implemented and supported **Shopify e-commerce integration**, aligning inventory, pricing, and online sales
- Supported business continuity during COVID through digital transformation

Key Achievement:
Led the **digital transformation** of the business, managing **1,000+ inventory items**, improving system reliability, and enabling sustained online sales growth.

Freelance IT Support | Desktop & Systems Technician

Self-Employed – Auckland, NZ
2018 – Present

- Built, deployed, and supported business desktops and laptops
- Installed and supported **Windows 10/11 and Microsoft Office**
- Performed SSD migrations, data recovery, and fault isolation
- Troubleshot network issues including **DNS, IP conflicts, Wi-Fi, and router faults**
- Delivered clear end-user support and documentation for non-technical clients

---

Earlier Career – Infrastructure, Hosting & Systems (Summary)

2000 – 2010 | International & Public-Sector Environments

Held senior technical roles including **IT Consultant, Hosting Engineer, Systems Specialist, and Academic Instructor**, supporting:

- Server and hosting platforms
- Web and database systems
- Secure document management solutions
- Enterprise, NGO, and university IT environments

This period established **strong foundational systems knowledge**, now reinforced with modern cloud engineering skills.

EDUCATION

Diploma in Cloud Engineering (NZQA Level 7)
Yoobee College of Creative Innovation – Auckland | 2024–2025

- AWS & Azure hybrid infrastructure
- Secure networking (VPC / VNet)
- Windows & Linux server administration
- Identity, access control & MFA
- Monitoring, backup, recovery & cost optimisation

Master of Global Information & Telecommunications Studies (NZQA Level 9)
Waseda University – Tokyo, Japan

Bachelor of Computer Science (NZQA Level 7)
Royal University of Phnom Penh – Cambodia

Bachelor of Mathematics (NZQA Level 7)
Royal University of Phnom Penh – Cambodia

CERTIFICATIONS & AFFILIATIONS

- Certified AWS Cloud Practitioner (AWS – Vue Test)
- AWS & Azure - Academy Badges (Cloud Practitioner, Architect, SysOps)
- Member – Engineering Institution of Cambodia (IT Committee)
- Volunteer IT Support – Community & Student Organisations
